ANOTHER STEP IN NORTHERN EMPLOYERS TRYING TO USE

SECURITIES CASE.

New York. July 15.—At the office of the Northern Securities company in this city, it was said that the President Hill would not say anyothing on the subject until at least the demands made up to the latter he had read the indeed do. after he had read the judge's de- present time.

Bradford today granted a preliminary injunction in the suit brought by Edward H. Harriman, Winslow S. Pierce and others to restrain the proposed pro rata distribution of the assets of the Northern Securities company. This is a defeat of the Hill interests. The opinion is fifty typewritten pages in length.

The decision of Judge Bradford does not dispose of the main points at issue in the case, which were whether or not Marriman and Pierce should have returned to them the stock of the Northern Pacific company, which they put into the Northern Securities company, or whether they should have distributed to them the stock of both the Northern Securities company, or whether they should have distributed to them the stock of both the Northern Securities company.

Injunction Necessary.

Judge Bradford devotes most of his

Injunction Not Injurious.

ludge Bradford, in discussing the ad- discussed. Visability of granting a preliminary injunction, said that such an injunction would not interfere with the operation of either railroad, nor would it be injurious to the public, He said it might be contended that the injunction would interfere with the distribution of dividends on the stock of the Northern Securities company, or at least on a part of that stock, but that it was within the court's power to require bonds to proof that stock, but that it was within the court's power to require bonds to protect any stockholders from any possible losses. Judge Bradford, in his decision, does not provide for the form of a decree, and asks that a form be submitted to him.

Followed Precedent.

In granting a preliminary injunction policy that controlled Judge Kilpatrick when the latter granted an injunction restraining the Pennsylvania Raillegraph company when the company couly not be obtained, even though a decision might be granted in favor of the complainant on the final hearing. In the present case Harriman and Pierce are asking for the return of the particular stock of the Northern Pacific Railway company which they put into the combination. If the pro rata distribution were not to be enjoined and Harriman and iPerce would win on the final hearing the particular stock which some control of the combination. If the pro rata distribution were not to be enjoined and that in the particular stock which some control of the combination. If the pro rata distribution were not to be enjoined and that in the particular stock which is the particular stock of the first time stock of the combination. that hearing the particular stock which they are suing to recover would al-ready be distributed and their victory

ready be distributed and their victory would be a barren one.

Question of Title.

The litigation turned largely on the question as to the title to the Northern Pacific stock which E. H. Harriman and Winslow Speyer put into the combination and which amounted to about \$75,000,000. The contention of the Northern Securities company was that the stock had become the absolute property of that company and that it was perfectly legal for the Northern Securities company to carry out the pro rata plan of distribution upon which the company had agreed. Lerriman contended that by reason of the corporation being declared illegal by the United States supreme court title had not been passed from Harriman not been passed from Harriman were entitled to have returned to them the particular stock they had put into the combination, and which involved

New York, July 15.—Striking meat handlers were today waiting for the announcement of the settlement of the strike against the big western packers. This was expected almost any hour from Chicago, but in the meantime prices of beef continued to go up, and other provisions were also affected. Poultry and eggs have been advanced and fish dealers announce that sea food will be the next to go up.

Cold storage poultry has been advanced 2 cents a pound. Incubator chickens and ducks are abundant, but the price is almost prohibitive to the poor.
